

COWLEAZE ROAD KINGSTON

A mixed use development in the heart of Kingston comprising of 19 apartments and 10 live/work units arranged above five small offices and a large retail unit at street level.

The live/work and residential units are entered via a raised terrace above the retail unit at first floor level. Discreet carparking is provided within a rear ground floor courtyard accessed via a covered driveway off Cowleaze Road, which separates the retail and office elements of the scheme.

The project was taken from planning through to completion, 2003-2006.
