

Royal Opening Announcement for Haig Housing Trust Development

We are delighted to be able to confirm that Her Majesty The Queen will be formally opening our Veterans Accommodation project for Haig Housing Trust on their Morden Estate on 11th October 2019. Watch this space for further details of the ceremony in due course.

Haines Phillips Architects were appointed by Haig Housing Trust in January 2015 to carry out a Feasibility Study to explore the development potential of their existing estate at Morden for new residential accommodation using Grant Funding through the Veterans Accommodation Fund.

Our proposals consisted of 68 high quality, sustainable, contemporary residential units, comprising a mix of 1, 2 and 3 bed flats, and 3-4 bed family houses.

The larger of the building groups, including Queen Elizabeth Terrace, is arranged as a three-sided court around a formal landscaped space. The other smaller groups relate to shared and semi-private amenity space and shared surface roads in a contemporary interpretation of one of the most attractive features of the Estate.

Further details on the project can be viewed on our website [here](#).
