

Haines Phillips Architects are now featured on House and Garden magazines The List

We are pleased to announce that we are now featured on House and Garden's The List.

The List is a directory of design professionals and "an indispensable guide for anybody wanting work done to their home, from a single pair of curtains to a whole house project".

Take a look at our [profile](#) and bear The List in mind when you or someone you know is thinking of doing work in their home.
