

Lauderdale House project shortlisted in Camden Design Awards 2017

We are very pleased to announce that our project for Lauderdale House in Highgate, N6 was shortlisted in the recently awarded Camden Design Awards 2017.

Lauderdale House is a Grade II* Listed Building set in the grounds of Waterlow Park on Highgate Hill. It was originally built in 1582 as a timber-framed house and has since been substantially altered by its successive owners, notably in 1760 when the original structure was extended with a portico towards the park and the exterior was given a classical treatment.

Our project for the building, completed in December 2016, refurbished and extended the building to provide improved visitor facilities centred around a glazed courtyard space at the heart of the building.

More details can be found on the project page [here](#).
