

Bramley Grange Retirement Homes

Guildford, Surrey, GU5

The Bramley Grange development for Beechcroft Developments, is comprised of 20 spacious retirement flats and houses set within attractive gardens and grounds. Detailing and materials were designed to sit comfortably within the surrounding character and townscape in the Bramley Village Conservation Area.

Most of the properties have balconies or conservatories, and cars are kept out of sight in secure underground private parking. Our design included a high-vaulted swimming pavilion with fitness area for use throughout the year.
