

COVID-19 Update

Updated statement from Haines Phillips Architects

Further to our Statement of 19th March advising of measures we were putting into place in view of the COVID-19 situation we wish to update our clients, colleagues, contractors, fellow professionals and friends on our current measures and set-up.

We have now entered our fourth week of successful remote working whereby we are working from home for the majority of the time with less frequent visits to the office. The digital tools and systems we have put in place to enable our Team working and our communications with all parties to remain uninterrupted are continuing to work extremely well thanks to the efforts and diligence of the Partners and staff at Haines Phillips Architects and our support network. We are continuing to meet our Clients' targets and deadlines and to carry out site inspections and visits on some sites that have safely remained open and are following all Government guidelines for safe working.

Contact with us remains as usual, with the partner in charge being the best person to contact via email. You can expect the same timely response and care from us at all times.

We wish to thank our clients, staff and colleagues for their continuing support and co-operation and we wish you and yours the best of health.

The Partners
