

Loft Extension & Roof Terrace, Barrington Road

Crouch End, London Borough of Haringey, N8

This project comprised alterations to a large loft area and the addition of a roof terrace, in order to open the loft to the spectacular high-level views to Alexandra Palace and create a spacious master bedroom suite.

The new bedroom suite includes a dressing room and en-suite shower room. Views are through full height bi-fold doors that give access to the roof terrace. The roof terrace has a glazed floor and balustrade to allow light to penetrate to the windows below.

Our clients have sent us the following testimonial: "Mike and Maha were a pleasure to work with. I have thought long and hard about the layout of our loft and Mike came up with a concept that had never crossed my mind. Maha's attention to detail is exceptional. Fantastic lighting designs and beautiful recommendations for tiling and fittings"
